

2014- 2015 Projected Individual Flight Training Costs

These are the projected costs for flight courses for the 2014 - 2015 school year based on anticipated rates(). Course costs are based on the average number of hours it takes a student to complete the course, and may vary from student to student according to their capability and motivation. Financial aid may be available to assist with these costs, but applying for aid must be done well in advance. Flight costs are in addition to tuition. (* Estimated course costs do not include potential fuel surcharge, which may be implemented pending market conditions).*
