SAAC Minutes

October 7th, 2012

1.) **Attendance Recorded.**

2.) **Constitution Amendments**- In addition to the amendments that were made to the constitution at the beginning of the semester, members recently voted on removing the bylaws from the constitution as well.

3.) **SAAC Skyward** - The October issue for SAAC Skyward has been released. To avoid clutter, new dispersal methods will be available at the airport and at Odegard for these newsletters.

4.) **Peer Support Program**- The informational meeting on the peer support will be held on Wednesday, October 10th at the Atmospherium. The Peer Mentor Program is designed to help guide new Aerospace students through their initial time here, and to serve as a networking tool post-graduation. All majors are welcome to attend.

5.) **SAAC Website**- SAAC officially launched the new website. The website is very detailed and provides significant information about SAAC, its accomplishments and the frequently asked questions received from its officers. The website is also updated weekly, so stay tuned for upcoming events.

6.) **SAAC Recruitment**- SAAC has been successful in inviting students (non-officers) to the meetings that are held weekly in Streibel Hall. It is important that students become aware and stay updated on the organization's objective and the progress it has made over the years because SAAC represents the students and caters for their comments, questions and concerns. SAAC Officers will continue to reach out to students by visiting classes.
Upcoming Events:

- Faculty Luncheon - October 17th, 2012
- Dean's Forum and State of Industry - November 6th, 2012
