

## **CURRICULUM VITAE OF SANTHOSH SEELAN**

**Chester Fritz Distinguished Professor**

**Department of Space Studies**

**University of North Dakota**

**Grand Forks, ND 58202-9008, U.S.A.**

**E-mail: [seelan@space.edu](mailto:seelan@space.edu), Telephone: 701 777 2355**

(Updated July 2016)

### **SUMMARY OF CAREER EXPERIENCE**

**Career spanning six countries and four continents with four decades of experience in academia, government, private industry, and nongovernmental organizations**

### **PROFESSIONAL EXPERIENCE**

#### **1998 - to present: University of North Dakota (UND)**

2010 – 2016 Director, North Dakota Space Grant Consortium (statewide program)

2010 – 2016 Director North Dakota NASA EPSCoR (statewide program)

2010 – 2016 Chair, Department of Space Studies, School of Aerospace Sciences

2009 – Spring, spring 2013, and summer/fall 2016 - Interim Associate Dean, School of Aerospace Sciences

2006 – 2010 Graduate Director, Department of Space Studies, School of Aerospace Sciences

2006 – Current, Professor (tenured), Department of Space Studies, School of Aerospace Sciences

2005 - 06 Associate Professor, Department of Space Studies, School of Aerospace Sciences

2003 - 05 Associate Professor and Founding Chair, Department of Earth System Science and Policy, School of Aerospace Sciences

2000 - 2005 Lead Scientist, Crop and Range Alert System Project, Upper Midwest Aerospace Consortium (UMAC), School of Aerospace Sciences

1999 - 2003 Research Associate Professor, Upper Midwest Aerospace Consortium, School of Aerospace Sciences

1999 – 2003 Director, UMAC - Earth Science Information Partners

1998 - 1999 Research Associate, Upper Midwest Aerospace Consortium, School of Aerospace Sciences

**1997 - 1998: Terralink New Zealand Ltd**, a New Zealand government owned geospatial technology enterprise. Land Resources Monitoring Consultant

**1995 - 1996:** Worked as General Manager, **ESRI India**, briefly. Coordinator, ATLA, Wellington, New Zealand - a Non-Governmental Organization

**1977 - 1995: National Remote Sensing Agency (NRSA), Department of Space, Govt. of India, Hyderabad, India**

1990 – 1995 Head, NRSA Data Center and Director Indian Remote Sensing Satellite (IRS) Data Dissemination

1984 - 1990 Principal Investigator of Nationwide Groundwater Projects

1988 - Promoted as Scientist, Grade SF

1983 - Promoted as Scientist, Grade SE

1980 - Promoted as Scientist, Grade SD

1977 - Joined as Scientist, Grade SC

**1975 - 1977: Operations Research Group, Baroda, India** – a natural resources management consultancy group

1976 - Promoted as Senior Research Analyst  
1975 - Joined as Research Analyst

## **EDUCATIONAL BACKGROUND**

### **Ph.D. Remote Sensing**

(Jawaharlal Nehru Technological University, Hyderabad, India, 1994)

Dissertation Title: "Remote Sensing Applications and GIS Development for Groundwater Investigations"

**Practical Training in Remote Sensing for Geosciences** (Free University of Berlin, Germany, May-July 1979)

**Post Graduate Diploma in Groundwater Research** (Hebrew University of Jerusalem, Israel, 1975)

### **M.Sc. Applied Geology**

(Indian Institute of Technology, Bombay, India, 1974)

Thesis Title: The Mineralogy and Geochemistry of Fluorite Deposits of Kahela-Manokipal Region, Rajasthan, India.

### **B.Sc. Geology**

(Annamalai University, Tamil Nadu, India, 1971)

## **AWARDS, HONORS & RECOGNITIONS**

### **Departmental:**

1. 2013. The Department of Space Studies received the prestigious **“NASA Johnson Space Center Certificate of Appreciation”** for 25 years of outstanding leadership in university education in space studies, aerospace workforce development, and for accomplishments in interdisciplinary aerospace research
2. 2014. The Department of Space Studies received the UND Foundation/Thomas J. Clifford Award for **“Departmental Excellence in Teaching”** at the Founders Day on Feb 27<sup>th</sup> 2013

### **Individual:**

1. **“Chester Fritz Distinguished Professor”** award, 2014
2. Recognized thrice (2009, 2011 and 2012) as the **“Outstanding Student Organization Advisor”** at the UND Memorial Union Leadership Awards Ceremony for work with the Student Association of India, the International Organization, and in helping to organize the “Feast of Nations”
3. Nominee for the **“Public Scholar”** award. University of North Dakota. 2007
4. Paper published in *Remote Sensing of Environment* on “Remote sensing applications for precision agriculture: a learning community approach” was **adjudged the second most requested paper** by the publisher for the period October 2003 to September 2004, fifth most requested paper for the period April 2004 to March 2005 and 22<sup>nd</sup> on the Science Direct’s list of hottest articles for the period Oct-Dec 05
5. Nominee for the **National Mineral Award, 1987**, for early work on researching the use of remote sensing for targeting groundwater and later contributions to India’s ‘technology mission on drinking water’ through practical use of the technology
6. Elected **Chairman of the Drafting Committee** at the United Nations-ESCAP International Workshop on Water Resources, Seoul, Korea, October-November, 1986
7. **“Best Speaker of the Day Award”** at the 7th Asian Conference on Remote Sensing October 1986. Seoul, South Korea

8. **Special recognition** by the Minister for Science and Technology, India, for executing the Maharashtra Groundwater Project in a short time to help provide timely drought relief
9. **UNESCO Scholarship** to study groundwater in Israel. 1974-75
10. **Institute's Silver Medal** for obtaining **1st rank** in the M.Sc. program at the **Indian Institute of Technology**, Bombay, a leading technical institution in the world.
11. **Recipient of a merit-cum-means scholarship** for the M.Sc. program at the M.Sc. program at the Indian Institute of Technology, Bombay
12. Certificate of Merit for obtaining **1st rank in the B.Sc. Program**

## **GRANT ACTIVITIES**

### **Awards Received as Principal Investigator**

1. 2015-18. NASA EPSCoR RID. Total award for three years \$375,000
2. 2015-18. NASA Space Grant. Total award for three years \$1,570,000
3. 2011-15. NASA Space Grant. Total award for five years \$2,504,066
4. 2012-15. NASA EPSCoR RID. Total award for three years \$375,000
5. 2011. NASA EPSCoR RID Augmentation award. \$50,000
6. 2011. NASA EPSCoR RID year 5 award. \$125,000
7. 2010. NASA Space Grant Augmentation award. \$169,066
8. 2005-2007. NSF-EPSCOR Faculty Start Up Grant. \$100,000
9. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral Aerial Imaging for Sustainable Rangeland Management, Mortenson's Ranch, South Dakota. Task 1250, \$43,068
10. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral Aerial Imaging for Study of Nutrient Uptake in Plants, Hoveland, South Dakota. Task 1222, \$45,732
11. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral Satellite Imaging for Land Management in East Iron, Rosebud Indian Reservation, South Dakota. Task 1087, \$2,784
12. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Flood Inundation Study in Nelson County in North Dakota. Task 1072, \$5,283
13. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral Satellite Imaging for Teepee Village Location Studies, Rosebud Indian reservation, South Dakota. Task 1023, \$2,142
14. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Land management in Rosebud Indian reservation, South Dakota. Task 1021, \$5,997
15. 2001. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Crop Studies in Red River Valley, North Dakota. Task 1020, \$29,278
16. 2000. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Leafy spurge Detection in Wyoming. Task 624, \$6,925
17. 2000. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Fire Fuel Prescribed Burn Project in Wyoming. Task 622, \$6,568
18. 2000. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Satellite Imaging for Crop Disease Studies in Red River Valley, North Dakota. Task 620, \$12,899

19. 1999. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Aerial Imaging for Weed detection in Range Lands, Wyoming. Task 224, \$97,946
20. 1999. NASA Scientific Data Purchase, NASA Stennis Space Centre, High Resolution, Multispectral, Aerial Imaging for Crop studies in Red River Valley, ND. Task 217, \$139,149

**As Administrative PI** (required by NASA to serve in this capacity as ND NASA EPSCoR Director, but the technical aspects of the projects are carried out by the Science PIs)

1. Integrated strategies for Human Exploration of Moon and Mars. 2010-14. NASA. \$750,000
2. Evaluation of NASA GISS Model AR5 Simulated Global Cloud Fraction and Radiation Budgets Using the MODIS-CERES Observation and MERRA Reanalysis. 2011-2014. \$750,000
3. Experimental and Computational Investigation of Low Pressure Variable-Speed Turbine Aerodynamics: Benchmark Data Set and Predictive Tool Development. 2011-14. \$750,000
4. Multi-Purpose Research Station in North Dakota in Support of NASA's Future Human Missions to Mars. 2015-2018. \$750,000

**Faculty Start UP Grant** (as Chair of the department of Space Studies, applied and received this on behalf of another faculty)

1. Pablo de Leon. ND EPSCoR. 2013-15. \$102,000

**As Co-PI/Lead Scientist**

1. 2004. ND NASA EPSCoR, Vegetation Dynamics in Bangladesh, \$4,975
2. 2004. NASA/Raytheon, Building a Crop and Range Alert System – Year V, \$275,000
3. 2003. NASA/Raytheon, Building a Crop and Range Alert System – Year IV, \$500,697
4. 2002. NASA/Raytheon, Building a Crop and Range Alert System – Year III, \$527,716
5. 2001. NASA/Raytheon, Building a Crop and Range Alert System – Year II, \$238,880
6. 2000. NASA/Raytheon, Building a Crop and Range Alert System – Year I, \$326, 019

**As Co-Investigator/Project Scientist**

1. 2009. Alaska SAR Facility , Utilizing ALOS data for monitoring oil-palm and forest changes to the Tanjung Puting National Park, Indonesia – no grant money, data products only.
2. 2004. NASA, Northern Great Plains Centre for People and Environment, \$2,149,000
3. 2003. NASA, Northern Great Plains Centre for People and Environment, \$2,682,000
4. 2003. USDA-ARS, Agricultural Research Service, \$347,000
5. 2002. NASA, Northern Great Plains Centre for People and Environment, \$1,996,000
6. 2002. NASA, A Public Access Resource Centre – Implementation Phase, \$1,000,000
7. 2001. NASA, Northern Great Plains Centre for People and Environment, \$1,496,000

**Travel Grants Received**

1. 2013. Partial travel grant to attend International Astronautical Federation Congress in Beijing, China, September, 2013. UND Senate Scholarly Activities Committee
2. 2011. Partial travel grant to attend International Astronautical Federation Congress in South Africa, Oct 2011. UND Senate Scholarly Activities Committee
3. 2011. Partial travel grant to attend Argentine Association of Space Technology conference in Argentina, May 2011. UND Senate Scholarly Activities Committee
4. 2007. Full ravel grant from United Nations to participate in the 17<sup>th</sup> UN/IAF Workshop, Hyderabad, India

5. 2006. Full travel grant to visit Haiti to explore research opportunities. Costs covered by the Haitian American Engineers and Scientists Association
6. 2005. Travel grant to attend International Conference on Environmental Management, Hyderabad, India. UND Senate Scholarly Activities Committee. \$939.35
7. 2004. Full travel grant to attend INSAR Workshop, Oxnard, CA. Costs covered by NASA
8. 2002. Full travel grant to attend meeting of Haitian American Engineers and Scientists Association (HAES) at Washington DC. Costs covered by HAES

**All the projects carried out at Terralink, New Zealand were based on competitive bids. Projects carried out at the National Remote Sensing Agency, India, were based on both competitive bids and budget appropriations by the Department of Space.**

## **TEACHING INTERESTS**

### **Formal Education**

Teaching interests include remote sensing, global change and international space programs. Have taught or teach the following courses at the University of North Dakota.

1. SpSt 435: Global Change
2. SpSt 450: International Space Programs. Co-taught with other faculty
3. SpSt 501: Survey of Space Studies I. Co-taught with other faculty
4. SpSt 522: Remote Sensing Principles
5. SpSt 523: Remote Sensing Applications
6. SpSt 545: Space and the Environment. Co-taught with other faculty
7. SpSt 574: Remote Sensing in Developing Countries
8. SpSt 590: Colloquium
9. SpSt 593: Individual Research in Space Studies
10. SpSt 595: Space Studies Capstone
11. SpSt 997: Independent Study
12. SpSt 998: Thesis
13. ESSP 501: Earth System Science and Policy I
14. ESSP 501R: Earth System Science and Policy Recitation
15. ESSP 501L: Earth System Science and Policy Lab
16. ESSP 540: Advanced Topics in Geospatial Technologies
17. ESSP 594: Directed Study
18. Geog 575: Seminar in Remote Sensing: Remote Sensing in Developing Countries

### **Non Formal Education**

As Lead Scientist of the Crop and Range Alert System project, designed, developed and taught at “hands-on” remote sensing training programs for the farmers, ranchers and other end users. Between year 2000 and 2006, 33 day long training sessions were held at UND and other locations in South Dakota and Wyoming and a total of 564 end users were trained through these non-traditional teaching programs.

Transfer of technology and technology promotion formed an integral part of the groundwater targeting projects carried out at NRSA, India. Organized and taught at a number of training programs for practicing hydro-geologists, at NRSA and at the National Geophysical Research Institute to expose them to the potential applications of remote sensing. In addition, taught at a number of training courses organized by UNICEF, UNDP and FAO in India and Nepal.

## Contributions to Promotion of STEM Education in ND

Through the Space Grant, initiated a number of programs to promote STEM education among school and college students in the state of ND through “hands on” projects. Notable among them is the annual high altitude ballooning completion for middle and high school students in the state.

#### **Conference/Workshop Presentations with Abstracts only, in Proceedings**

1. "Space Studies Graduate Program at the University of North Dakota" - VI Argentine Space Congress, May 2011, San Luis, Argentina.
2. "How do farmers in North Dakota use remote sensing for improving agricultural productivity?" The Instituto Nacional de Tecnología Industrial (INTI), May 2011, Buenos Aires, Argentina
3. Seelan, S. 2010. Online space studies graduate education: University of North Dakota experience. 14<sup>th</sup> Annual ISU International Symposium. Strasbourg, France.
4. Seelan, S, D. Marshall, J. Nordlie. 2010. A project to Develop Unmanned Aerial Vehicles (UAV) Based Remote Sensing Applications for Precision Farming. International UNMANNED VEHICLES Workshop (UVW2010), 10-12 June 2010, İstanbul, TÜRKİYE.
5. Seelan, S, D. Marshall, J. Nordlie. 2010. Unmanned Aerial Vehicles (UAV) Based Remote Sensing Applications for Precision Farming. Workshop on UAV, Paris, France
6. Seelan, S, P. Carson, G. Wagner and U.R. Rao. 2007. Application of Precision Farming Techniques for Increased Food Grain Production. 17<sup>th</sup> UN/IAF Workshop. Hyderabad, India.
7. Kuchy, L, B. Rundquist, S. Seelan and R. Nigam. 2007. Remote Sensing-based Study of Land- Cover Changes Related to Mining and its Impacts on Marine Fauna: A Case Study in Goa, India. AAG. Annual meeting. San Francisco.
8. Kurz, B, S. Seelan, T. Justham. 2006. Evaluation of Temporal Trends in Irrigated Agriculture Overlying the Ogallala Aquifer, United States. Global Irrigated Area Mapping (GIAM) International Workshop, Colombo, Sri Lanka.

9. Pervez, M, S. Seelan, and B. Rundquist. 2006. Land Cover Vegetation Dynamics and Conversion of Agricultural Land in Bangladesh, 1973-2003. Joint Assembly of AGU, San Francisco.
10. Current issues in global resources and environment. Keynote address, Technical Session on Environmental Geo-Informatics and Modeling, International Conference on Environmental Management, Hyderabad, Oct 28, 05.
11. Seelan, S, C.S. Sommers-Austin, D. Baumgartner, D. Clay, R. Lawrence, C. Reese and G. Seielstad. 2005. Empowering Farmers and Ranchers With Near Real Time Geospatial Information – a Regional Cooperation Experience from the US Upper Midwest. Presented at the International Conference on Environmental Management, Hyderabad.
12. Provenza, V, S. Samson and S. Seelan. 2005. Panel presentation - A Multidisciplinary approach to Geospatial Curriculum. American Society for Photogrammetry and Remote Sensing, Annual Conference, Baltimore.
13. Seelan, S, N. Aloysius, D. Baumgartner, O. Beeri, B. Dahlen, S. Eggleston, C. Enger, T. Janke, S. Laguette, V. Nangia, S. Pervez, J. Peterson, P. Pettit, I. Ramfjord, P. Sardesai, G. Seielstad, and X. Zhang. 2005. A Crop and Range Alert System for the Northern Great Plains. Scholarly Activities Forum, University of North Dakota.
14. Shahriar, P, B. Rundquist and S. Seelan. 2004. Mapping Land Cover Change in Northern Bangladesh between 1973 and 1996 using Multitemporal Landsat Multispectral and Thematic Mapper Imagery. Annual meeting of Great Plains/Rocky Mountain Division of the Association of American Geographers, Sioux Falls.
15. Seelan, S, D. Baumgardner, O. Beeri. 2004. Remote Sensing of Rhizomania – a Killer Disease in Sugarbeets. Scholarly Activities Forum, University of North Dakota.
16. Seelan, S, D. Baumgardner, O. Beeri, G. Casady, M. Schull, C. Shumake and A. Cattanach. 2003. Remote Sensing of Rhizomania in the Red River Valley. 30<sup>th</sup> International Symposium of Environment, Honolulu, Hawaii.
17. Seielstad, G.A, O. Beeri, P. Carter, B. Dahlen, R. Hanley, A. Johnson, G. Johnson, S. Laguette, A. Melesse, D. Olsen, R. Phillips, R. Schultz, S. Seelan, W. Semke, C. Won, X. Zhang. 2003. Applications for Crop and Range Management with New Sensors. 30<sup>th</sup> International Symposium of Environment, Honolulu, Hawaii.
18. Laguette, S, S. Seelan, P. Carter and J. Peterson. 2003. Training Producers to Use Remote Sensing for Farming. Scholarly Activities Forum, University of North Dakota.
19. Casady, G.M, R.S. Hanley, S.K. Seelan, C.A. Shumake and T.J. Sandstrom. 2003. Surveying Leafy Spurge on the Ground and from Space. 56<sup>th</sup> Annual meeting of Society for Rangeland Management. Casper, Wyoming.
20. Seielstad, G.A, S. Laguette, S. Seelan, R. Lawrence, M. Henry, C. Maynard, K. Dalsted, J. Rattling Leaf. 2001. Applications of Remote Sensing to Precision Agriculture. Invited paper presented at the 2001 spring meeting of the American Geophysical Union, Boston.
21. Seelan, S. 2001. IKONOS Derived Inputs for Precision Farming. Invited paper presented at the High Resolution Commercial Imagery Workshop, Greenbelt.
22. Seelan, S. 2001. Precision Farming with High Resolution Imagery. Invited, keynote paper presented at the International Conference on Remote Sensing and GIS/GPS, Hyderabad.
23. Wagner, G.A, P.C. Carson, and S. Seelan. 2001. Earth Science Applied to Precision Agriculture. Presented at the 6th ESIP Federation meeting, Tucson.
24. Seelan, S, 1989. Satellite Derived Geomorphic Indicators of Groundwater in Goa. Presented at the Regional Workshop on IRS-1A Mission and Applications, Goa.
25. Seelan, S, V.S. Hegde, P.R. Reddy, R.S. Rao, R.K. Sood, A.K. Sharma, A.K Gupta, G.

- Raj, A. Perumal and L.R.A. Narayan. 1986. Groundwater Targeting in a Drought Situation in Maharashtra State, India, Using Landsat TM Data. Presented at the 7th Asian Conference on Remote Sensing, Seoul.
26. Seelan, S and S. Thiruvengadachari. 1981. Satellite Sensing for Extraction of Groundwater Resources Information. Proceedings of the Fifteenth International Symposium on Remote Sensing of Environment, Ann Arbor.
27. Seelan, S and S. Thiruvengadachari. 1980. An Integrated Regional Approach for Delineation of Potential Groundwater Zones using Satellite Data - An Indian Case Study. Abstracts of Proceedings, 26th International Geological Congress, Paris.

In addition to the above, made several professional presentations at internal meetings in UND and at the Department of Space, India.

### **Conference and Workshop Poster Presentations**

1. Saad M., R. Fevig, S. K. Seelan, C. Nolby. 2013. Promoting STEM Education in North Dakota with High Altitude Balloons. Space Grant Annual Fall Meeting. Charleston, SC.
2. Aloysius, N, Zhang, X, Seielstad, G, Seelan, S, Zubair, L. Climate Change and Water Stress: A Spatial and Temporal Analysis over the Indian Subcontinent. Poster presented at the Global Environmental Change: Regional Challenges Conference, 9-12 Nov, 2006, Beijing, China. Organized by the Earth System Science Partnership.
2. Kuchy, L, B. Rundquist, S. Seelan and R. Nigam. 2006. Assessment of Land-cover Changes Related to Mining using Remote Sensing Data: A Case Study in Goa, India. AAG Regional meeting.
3. Aloysius, Noel and S. Seelan. 2006. Climate Change: Temperature trends and its implications to the Agriculture Sector in India. Scholarly activities forum. University of North Dakota.
4. Seelan, S, D. Baumgardner, O. Beeri, S. Bylin, C. Carlson, R. Ferguson, T. LaRoque, T. Larson, S. Laguette, V. Nangia, G. Seielstad, J. Wahl, D. Will, and J. Waltz. 2004. Taking Satellite Imagery to Farmers and Ranchers – UMAC experience. Scholarly Activities Forum, University of North Dakota.
5. Seelan, S, D. Baumgartner, O Beeri, P. Carter, G. Casady, S. Laguette and G. Seielstad. 2003. Remote Sensing for Risk Management and Sustainable Development – Experiences from an End User Oriented Crop and Range Alert System. 30<sup>th</sup> International Symposium of Environment, Honolulu, Hawaii.

  28. Integrated remote sensing survey of natural resources of Bundelkhand region, U.P, India Prepared for the government of Uttar Pradesh. National Remote Sensing Agency. 1978-82
  29. Integrated remote sensing survey of natural resources of Tamil Nadu state, India. National

Remote Sensing Agency. Prepared for the government of Tamil Nadu. 1977-80

**Contributions to Project Reports as Co-author** (items 7 to 19 were in the form of map and meta data)

1. Regional Earth Science Applications Center. NASA Grant NAG 13-9906. Progress Report. Upper Midwest Aerospace Consortium. 2001
2. Regional Earth Science Applications Center. NASA Grant NAG 13-9906. Progress Report. Upper Midwest Aerospace Consortium. 2002
3. Regional Earth Science Applications Center. NASA Grant NAG 13-9906. Progress Report. Upper Midwest Aerospace Consortium. 2003
4. Northern Great Plains Center for People and Environment. NASA Grant NAG13-01006. Progress Report. Upper Midwest Aerospace Consortium. 2002
5. Northern Great Plains Center for People and Environment. NASA Grant NAG13-02047. Progress Report. Upper Midwest Aerospace Consortium. 2003
6. Northern Great Plains Center for People and Environment. NASA Grant NAG13-03024. Progress Report. Upper Midwest Aerospace Consortium. 2004
7. Report on Landcover Mapping of Rest of North Island regions, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
8. Report on Landcover Mapping of Rest of South Island regions, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
9. Report on Landcover Mapping of South Island Transect area, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
10. Report on Landcover Mapping of Waikato region, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
11. Report on Landcover Mapping of West Coast region in South Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
12. Report on Landcover Mapping of Canterbury region in South Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
13. Report on Landcover Mapping of Stratford district, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
14. Report on Landcover Mapping of Wellington Region, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1998
15. Report on Landcover Mapping of Waipa district, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1997
16. Report on Landcover Mapping of Ruapehu district, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1997
17. Report on Landcover Mapping of Dunedin district, South Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1997
18. Report on Landcover Mapping of Tasman region, South Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1997
19. Report on Landcover Mapping of Hawke's Bay region, North Island, New Zealand. Prepared for Department of Environment, New Zealand. Terralink, NZ. 1997
20. IRS utilization program - pre launch preparation for IRS 1A satellite program. Prepared for Department of Space. National Remote Sensing Agency. 1986
21. Integrated Remote Sensing Survey of Natural Resources of Upper Barak Watershed, North-East India. Prepared for North East Regional Council. National Remote Sensing Agency. 1984
22. Integrated Remote Sensing Survey of Natural Resources of West Coast region, India.

- Prepared for Central Water Commission. National Remote Sensing Agency. 1983
23. Integrated Remote Sensing Survey of Natural Resources of North Karnataka State, India. Prepared for Central Water Commission. National Remote Sensing Agency. 1982
  24. Indo-German Pilot Project to Evaluate Temporal, Multistage Remote Sensing Techniques. North-East India. Prepared for German Agency for Technical Cooperation. National Remote Sensing Agency. 1981
  25. Management Information Systems for Agriculture Sector in India. Development Planning Cell, Operations Research Group, India. Prepared for National Informatics Center. 1977
  26. Surat District Planning Study. Development Planning Cell, Operations Research Group, India. Prepared for the Gujarat State Planning Commission. 1977
  27. Systems Study on Water Resources Planning for Gujarat State in India. Development Planning Cell, Operations Research Group, India. Prepared for Narmada Water Commission. 1976

### **Report Prepared for the United Nations**

Report of the workshop on the applications of remote sensing techniques to water resources development. 1986. United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP). Seoul.

### **SERVICE**

#### **Service to the Department of Space Studies, ESSP, and UMAC**

1. Chair, Department of Space Studies ([www.space.edu](http://www.space.edu)), UND. 2010-
2. Graduate Director, Department of Space Studies, 2007-2010
3. Founding Chair, Department of Earth System science and Policy, UND. 2003-05
4. Served on Space Studies department's Ph.D. proposal development and acceptance process
5. Member/Chair, Faculty Search Committee, Department of Space Studies
6. Served on Department of Space Studies tenure and promotion committees
7. Served on faculty and staff hiring committees at UMAC and ESSP from 1999 to 2005
8. Launched an active recruitment initiative for ESSP at the start of the program
9. Evolved the strategic plans for ESSP and Space Studies Departments

#### **Service to the John D. Odegard School of Aerospace Sciences**

1. Interim Associate Dean, John D. Odegard School of Aerospace Sciences. Spring semester, 2009 and spring semester 2012.
2. Member, John D. Odegard School of Aerospace Sciences Leadership Team, 2004-05 and 2010-current.
3. Initiated and coordinated the visit of Prof. U. R. Rao, former chairman of Indian Space Research Organization to UND in August 2006.
4. Organizing committee, UND conference on "Agricultural Technologies for Rural Development" sponsored by Senator Byron Dorgan, February 2002.

#### **Service to the University of North Dakota**

1. UND Graduate Committee. Fall 2005 to Spring 2008
2. UND – India Collaboration Initiatives. The effort has so far resulted in UND becoming a partner along with several other leading universities in the US, in a major INDO-US initiative in higher education spearheaded by Amrita University in India, Department of Science and Technology and Department of Space in India and corporate partners such as Microsoft. Another result of this initiative is the MOU with Goa University in India which

offers potential “study abroad” opportunities for UND students in India.

These and other efforts have resulted so far in developing the following international collaborative research projects: i) North American Component of the Global Irrigated Cropland Inventory in collaboration with the International Water Management Institute, Sri Lanka, ii) Remote Sensing based methodology development for wetland inventory and monitoring in the Prairie pothole region, as part of a global wetland inventory initiative, in collaboration with the International Water Management Institute, Sri Lanka, iii) Remote sensing based study of impact of mining activity on marine fauna, in Goa coast, India, in collaboration with National Institute of Oceanography, India, and iv) Land Cover and Vegetation Dynamics, and Conversion of Agricultural Land in Bangladesh. All these projects have provided UND graduate students with opportunities for participating in international collaborative research projects and travel overseas for field work and internships. The relationships established through these initiatives also helped Dr. Pablo de Leon of the Space Studies Department to launch Pehuensat-1, an Argentinean satellite using India’s Polar Satellite Launch Vehicle.

The ongoing relationship with the International Water Management Institute (IWMI) in Colombo, Sri Lanka has also been strengthened and more student exchanges and research collaboration are taking place. UND is now a part of the Global Irrigated Cropland Inventory Consortium, led by the IWMI.

Collaborations have also been established with Haiti with a potential to develop research projects on resource development and environmental management.

3. Reviewer for UND Summer Faculty Fellowships – annual, ongoing
4. Advisor, Student Association of India, a UND student organization, from 2007 to 2009
5. Co-advisor, International Organization (IO), a UND student organization, from 2008 to 2012
6. Helped organize the “Feast of Nations” a major international event, from 2008 to 2012
7. Full Member, UND graduate faculty. 2004 to current
8. Adjunct faculty, Department of Space Studies from 2001 to 2005
9. Adjunct faculty, Department of Geography, since 2001
10. Adjunct faculty, Department of Geology and Geological Engineering since 2001

### **Service to the State of North Dakota**

1. As Director, ND NASA Space Grant (<http://ndspacegrant.und.edu/>), leading an effort to promote STEM education in the state of ND
2. As Director, ND NASA EPSCoR (<http://ndnasaepscor.und.edu/>), leading an effort to establish NASA relevant research capability and infrastructure in the state of ND
3. Carried out applied research to promote the use of remote sensing technology by the farmers of ND, both from satellite and aerial platforms including UAS
4. Helped start, establish and run the modern Geospatial Lab at UMAC. This lab is now an excellent resource for several users from within and outside UND.
5. Reviewer for ND View Scholarships – annual, ongoing
6. Reviewer for ND NASA EPSCoR proposals – annual, ongoing
7. Reviewer for ND NASA EPSCoR CAN proposals – annual, ongoing
8. Associate Director, NDView project, funded by AmericaView Consortium. 2005 to 2008
9. Proposal reviewer for NDView research project proposals (Fall 05, 07)

10. Proposal reviewer for NDEPSCOR. 2002, 2003

### **National and International Service**

1. Member of the Space University Administrative Committee, International Astronautical Federation
2. Honorary Fellow of Center for Advancement of Global Health (an international organization).
3. Member of the US Global Leadership Coalition's North Dakota Advisory Committee
4. Hosted a faculty from Charles Sturt University, Australia who was on sabbatical
5. Reviewer, *Geocarto International*
6. Reviewer, *Environmental Management*
7. Reviewer, *Journal of Spatial Hydrology*
8. Reviewer, *Journal of Agricultural Science and Technology*
9. Reviewer, *Agriculture, Ecosystems and Environment*
10. Reviewer, *American Geophysical Union – book series*
11. Book reviewer for the ninth edition of “Environmental Science – Earth As Living Planet” by Daniel Botkin and Edward Keller.
12. Member, Peer Review Panel, *Book on Global Irrigated Areas*.
13. Acted as advisor to the Haitian American Association of Engineers and Scientists, visited Haiti, and recommended developmental projects in the area of water and agriculture.
14. Reviewer, *Belgian Government's Science Policy Office* under their research program on "STEREO: Support to the exploitation and research of earth observation data".
15. Chaired a working group meeting on “capacity Building and International Cooperation” at the 17<sup>th</sup> UN/IAF Workshop. Hyderabad, India. 2007
16. Chaired a technical session at the International Workshop on Global Irrigated Area Mapping, Colombo, Sri Lanka, September, 2006.
17. External reviewer for faculty tenure and promotion, University of Arizona.
18. Member of organizing committee for International Conference on Environmental Management, Hyderabad, India, 2005.
19. Chaired a technical session at the International Conference on Environmental Management, Hyderabad, India, 2005.
20. Chaired a technical session at the ASPRS Annual Meeting 2001. St. Louis.

### **Pre-UND Service**

1. Core member of ISO 9000 certification process at Terralink, New Zealand. 1996-97
2. Fundraiser, “Water for Survival” a charity organization in New Zealand that supports drinking water projects in developing countries. 1996-97
3. Served on many recruitment, promotion and purchase committees at NRSA. 1977-1995
4. Member, Remote Sensing Applications Mission Council of India, 1990-95
5. Treasurer, Indian National Cartographic Association, 1991-94
6. Member, Indian Remote Sensing Satellite (IRS) Mission Management Board, 1990-95
7. Member, IRS Operations Review Board, 1990-95
8. Member Secretary, Indian National Satellite Data Archival Committee, 1992-93
9. Member, IRS 1C Ground Segment Critical Design Review Committee, 1994-95
10. Member, Project Management Board, Dept of Space-European Remote Sensing Satellite-1. 1990-95
11. Prime Minister's Indian National Task Force on Technology Mission on Drinking Water, 1986-90
12. Chair, drafting committee, UN-ESCAP International Workshop on Water Resources, Seoul,

- Korea, October-November, 1986
13. Science Exchange Visitor, Free University of Berlin, Germany, May-July 1979
  14. The projects on developing methods to use remote sensing to target groundwater (1977-90) have benefited several rural and tribal communities in India. The technology transfer service provided through this project has now ensured that there are a number of trained professionals, and every major groundwater targeting effort in India starts with reconnaissance level mapping using remote sensing
  15. Service through project leadership at NRSA: Notable projects co-coordinated at NRSA, India were: i) the Indian Remote Sensing Satellite (IRS) utilization program that later evolved as the National Natural Resources Management System (NNRMS) and encompasses the entire remote sensing and natural resource information integration in India for sustainable development, ii) as Deputy Coordinator of Indo-German co-operation agreement, was responsible for generating technical and budget proposals, team leadership, work execution and collaboration with multi agencies in India and Germany, iii) helped the Director (Remote Sensing Applications) in setting up state level remote sensing application centers, iv) integrated NRSA's role with that of the National Task Force on Drinking Water and managed NRSA's groundwater targeting efforts to provide timely information to the field survey units, and v) coordinated the first ever, Indo-Canada joint Synthetic Aperture Radar flights over India.
  16. Service through management of a national facility: As Head, Data Center and Director IRS Data Distribution, National Remote Sensing Agency (NRSA), Department of Space, India, was responsible for leading a staff of 45 involved with satellite data dissemination. The data center is one of the largest of its type in the world, distributing on an average 15,000 data products (obtained from five different satellite systems), to 1,500 customers annually at that time. Key responsibilities included general management (staff management, restructuring and change management, leading, training and motivating others, costing, pricing and budget management and regular executive reporting); client relationship management (government, corporate and commercial environments); editing a newsletter, organizing annual user interaction workshops; promotion campaigns and technical workshops, development of customized applications and services and interfacing with satellite data users, satellite data reception, production and spacecraft mission teams. Other responsibilities included the negotiation of international or interagency agreements and the coordination of major international or interagency remote sensing programs. Played a key role in initiating and negotiating the contract with Space Imaging (then EOSAT) for worldwide distribution of IRS products and services. Negotiated annual contracts and executed data reception and distribution agreements for SPOT, Landsat and ERS-1 satellites in India. Policy development, coordination and outreach to key international, interagency, and commercial stakeholders formed an integral part of these activities.

#### **MEDIA CITATIONS (partial list)**

1. Several citations in UND Research, AeroCom and other UND media outlets, 2008 - current
2. "Satellite Sense" – article in spring 2009 issue of Dimensions. University of North Dakota
3. Quoted in a [livemint.com/Wall Street Journal](http://livemint.com/Wall Street Journal) article on "ISRO plans satellite series for mapping climate monitoring". Jan 16, 2008
4. Mentioned in UND news releases for helping to establish relationships with India's Space Program on behalf of Pablo de Leon, for launch of Argentinean satellite from

## India

5. Quoted in “Space News” in article on India’s manned space mission
6. Mentioned in UND news releases for work with Haiti, research collaboration with International Water Management Institute, Sri Lanka, National Institute of Oceanography, Goa, India
7. Credited in media, and several UND publications for championing the cause for Indo-UND initiatives which resulted in the signing of a major MOU involving UND and other leading US Universities with Indian Universities, Microsoft and India’s Department of Science and Technology and Space. Also initiated another separate MOU between UND and university of Goa. This effort was listed as one of the UND highlights for the year 2005 by Grand Forks Herald
8. UMAC Evaluates DigitalGlobe Products to Mitigate Crop Disease. 10/25/2004. DigitalGlobe Press Release.
9. UMAC Evaluates DigitalGlobe Products to Mitigate Crop Disease. 10/26/2004. Space Daily
10. Imagery Could Help Assess the Health of Sugarbeet Crop to Manage Costly Rhisomania
11. Damage. 10/25/2004. Yahoo Financial News
12. UMAC Evaluates DigitalGlobe Products to Mitigate Crop Disease. 10/30/2004. Earth Imaging Journal
13. Exploring Satellite Images for Precision Farming. Dec 2004. Growing Magazine
14. An Eye in the Sky. 07/20/04. The New Farm
15. International Job Swapping. Winter 2004. UND Alumni Review
16. Experts question India’s moon exploration plans. 08/31/2003. TerraGreen, Issue 43.
17. Satellite Precision Farming. August 2001. Geotimes
18. Interviews/Views – Dr. Santhosh Seelan. March April 2001. GIS India Vol 10 No. 2
19. Indian Unmanned Moon Exploration to Cost \$90 Million. July 17, 2000. Space News, Vol 11 No 28
20. Interview – Dr. S.K. Seelan. Jan 1997. GIS India Vol 6, No 1
21. Eyes in the Sky. Three episodes of television series produced by the University Grants Commission (India) and aired several times by India’s leading TV news network, Doordarshan and University Grant Commission’s educational channels between 1989 and 1994. Provided technical support, script and interviews
22. Beyond 2000. Australian TV production by Chris Ardill Guinness on India’s advancements in Space Technology. Produced and aired in 1985-86. Provided script support.
23. There were several other minor mentions in media, not listed here.
