**UVS RESEARCH PROJECT DESCRIPTION**

This system has been called into live to permit universities, academies, faculties, schools, and research organizations in all countries to publish the unmanned vehicle system-related research projects that they have completed, or are currently undertaking, using a standardized format. All submitted and accepted research project definitions with all necessary contact details will posted alphabetically by country & submitting entity, as well as by submitting entity & country, on this web site. The submitted research projects are searchable by key words. Access to the submitted research projects will be open to open to all.

The objective is to make it possible for universities, academies, faculties, schools, and research organizations to find out what their international counterparts have already done, or are currently doing in the field of unmanned vehicle systems field, with the goal to avoid needless duplication of effort & wasting scarce research funds. This system will also permit the research organizations to search for teaming partners, and should also be of prime interest to industry.

**Submit or Modify a Research Project Definition**

- On-line registration form (can be modified on-line by the person having initially submitted the information).

**View Research Projects**

- On-line viewing of registered projects.

**UVS-RELATED TERMINOLOGY**

These are living documents to which all web site visitors can contribute. The intent is to contribute to creating internationally acceptable terms, definitions and abbreviations/acronyms, which is of prime importance for the international UAV community to be able to communicate correctly. Universally agreed terms and definitions will be imperative when the drafting of certification and flight safety standards commences. This initiative should contribute to this international effort.

Web site visitors are kindly invited to supply us with their inputs

by email. Please send your contributions concerning Terms & Definitions as a MS-Word attachment, and contributions for abbreviations/acronyms as a MS-Excel attachment. In both cases please indicate the reference of relevant document of origin (if applicable).

#### Terms & Definitions

- 51 Page document - Downloadable 1

#### Abbreviations & Acronyms

- 79 Page document - Downloadable 1

### UAS REFERENCE TABLES

#### Extract 2008 UAS Yearbook - UAS: The Global Perspective

- Categorisation, Categories & Airframe + Propulsion 1  
 - Quantities per Category & per Country 1  
 - Annual Comparisons of Development Status 1  
 - Categories & Airframe Characteristics 1  
 - UAS Referenced 1

### UAS TECHNICAL SPECIFICATIONS

This section proposes a form that can be completed by all UAS system manufacturers. This form permits to obtain identical and comparable information on UAS. The submitting entity can choose the measurements he desires to submit in; all submitted measurements are automatically converted into the other referenced measurements, thereby allowing simple comparison. The form has been laid out in such a way that descriptions such as payload capacity, which are sometimes rather opaque, are clearly defined. All submitted and accepted forms are subsequently posted on this web site.

#### View Detailed Technical Specifications

- Can be sorted by Designation, Manufacturer, Country  
 - 60 UAS descriptions (10 May 2008)

#### New Submission

- Online UAS Specification Submission Document

#### Modify a submission

- Online Modification of Submitted UAS Specification

### UAS BROCHURES & DATASHEETS

#### UVS International Members

- Corporate + product brochures & datasheets 281

#### Non-Members

### CONFIDENTIALITY POLICY

The contact information supplied when registering on this web site will **not** be transmitted to any other company or organization for any purpose whatsoever. It may however be used by Blyenburgh & Co to supply you with information on events it organises for UVS International and that pertain to unmanned vehicle systems (air, ground & naval) and related regulatory issues. Persons having registered can at all times request Blyenburgh & Co to have their particulars deleted from its database by addressing an email with «Delete from email listing» in the subject box, and indicating their family name, first name & company/organization as the message text. Persons registering can, at all times, obtain a copy of the information concerning them that is registered by Blyenburgh & Co, rectify it or oppose its possible transmission to others, by addressing a simple written request or notification to Blyenburgh & Co. This statement is in accordance with French Law. As this website is housed in France, the following sentence is to be mentioned: «Conformément aux dispositions de l'article 27 de la loi «informatique et liberté» N°78-17 du 06/01/78, vous pouvez accéder aux informations vous concernant, les rectifier où vous opposer à leur transmission éventuelle en nous écrivant.»

### GENERAL

Persons already having registered on [www.uvs-international.org](http://www.uvs-international.org) can access [www.uvs-info.com](http://www.uvs-info.com) by entering their email address and the password they use to enter the UVS International web site. Suggestions on how to improve this site are welcome and should be addressed to:
