

# YOU'D BE SURPRISED WHERE YOU FIND US

At Thales we are committed to the UK, providing systems at the heart of the UK's military capability. Thales is leading major security and intelligence programmes, such as the Watchkeeper Unmanned Air Vehicle system, and providing the UK armed forces with essential operational intelligence.

You will find our 9,000 employees based at 50 locations throughout all regions delivering an unmatched capability in service and security solutions for both defence and civil applications – from flight simulation and training provision to secure transactions and integrated communications.
